

Application No.: 09/820123

Docker No.: SMQ-059 (P5710)

**AMENDMENTS TO THE CLAIMS**

1-5 (Canceled).

6. (Previously Presented) In an electronic device that provides an on-line educational course, a method comprising:

receiving a request for a Web page at the electronic device from a remote client; and  
in response to said receiving step, sending a Web page containing a question and a fill-in-the-blank applet embedded therein to the remote client, said applet generating a graphical user interface (GUI) including instructions to a user to enter an answer to the question provided by said Web page, wherein the fill-in-the-blank applet includes a definition file, which is unavailable to the user, defining a correct answer to the question such that the definition file is separate from a source code for said Web page to prevent a user from obtaining the correct answer by viewing the source code.

7. (Original) The method of claim 6, wherein said Web page comprises a page of an on-line educational course.

8. (Original) The method of claim 6, wherein said Web page includes an applet tag instructing a browser to execute instructions for running the fill-in-the-blank applet.

9 - 10 (Canceled).

11. (Previously Presented) A computer-readable medium for use in an electronic device that provides an on-line educational course, comprising

instructions for running a fill-in-the-blank applet for displaying a question and a text box to a user, wherein the user can enter an answer to the question in the text box, the medium including hypertext markup language (HTML) code, which includes the question, to reference the applet; and

a definition file, unavailable to the user, indicating a correct answer for said question, said definition file being separate from the HTML code to prevent the user from obtaining the correct answer by looking at the HTML code.

Application No.: 09/820123

Docket No.: SMQ-059 (P5710)

12. (Original) The computer-readable medium of claim 11, wherein the instructions are executable on a virtual machine.

13. (Original) The computer-readable medium of claim 11, wherein the instructions are stored on a server and downloaded to a local processor of the user.

14-22 (Canceled).
